Rethinking operational efficiency and digital transformation in the Covid-19 Situation. Introducing service utilization examples in Thailand and other regions

In this seminar, in light of the changes on a global scale brought about by the Covid-19, in the Southeast Asian market, we will introduce service information and application examples under the theme of how companies will implement business efficiency and internal transformation.

Sample comments that we got from our customer

- Please tell me the solution under the COVID-19 environment.
- I have a lot of paper signature works, I want to do something about it.
- I don't know where to start business efficiency and internal transformation.

We plan the contents that would answer to these issues.
